

ATPLAS GROSS PRICE LIST 2026

ATPLAS GROSS PRICE LIST 2026

ABOUT ATPLAS

MANUFACTURING AND QUALITY

Atplas has a rich history of serving the water industry both in the UK and around the world from its base in Bridgend, Wales. It is a recognised and reliable supplier of house connection products for water supply. With an extensive range of boundary boxes for water meters, water fittings and valves for a range of service pipes.

WORKING FOR HEALTH AND SAFETY

Safety and a healthy work environment for our employees is high on the agenda at Atplas - both physically and mentally. It is very important to us that our employees can work in a safe work environment – no matter what role and job they have.

Over 10% of our colleagues have been trained as Mental Health First Aiders and many of our employees have long seniority and high expertise within their field. We continuously work on ensuring that Atplas remains an attractive and safe workplace.

We have a strong focus on the safety of our own employees as well as visitors and others. As some of our employees often work in environments with heavy items and under high safety requirements, all production employees have completed extensive safety training.

OUR CORE VALUES

Atplas has five core values that set the direction for how we run our business while at the same time ensuring sustainable growth. These five values, listed below, are interconnected and are the cornerstones of our operations:

Quality

Innovation

Reliability

Sustainability

Customer Service

Simon Spridgeon
Commercial Director

“ATPLAS IS COMMITTED TO WORKING CLOSELY WITH ITS CUSTOMERS AND PARTNERS TO DELIVER HIGH QUALITY HOUSE CONNECTION PRODUCTS AT HOME IN THE UK AND ACROSS THE WORLD. OUR NEW CUSTOMER SERVICE CHARTER SHOWS HOW WE ARE PUTTING THE CUSTOMER AT THE HEART OF WHAT WE DO.”

OUR COMMITMENT TO CUSTOMER SERVICE

Our new Customer Service Charter brings together ten clear commitments—designed to show exactly how we support you today and into the future. It reflects our promise to deliver service that is consistent, responsive, and built entirely around your needs.

Uniting AVK, Atplás, Fusion, and Glenfield Invicta under one approach, this Charter ensures you remain at the heart of every decision we make.

From fast answers and dependable products to expert guidance and reliable delivery, each commitment is focused on helping your projects run smoothly, reducing risk, and giving you complete confidence in every interaction.

CERTIFIED QUALITY

Managing quality is a key priority at Atplás and we are proud to be certificated to ISO 9001:2015 and ISO 14001:2015, as well as being certificated to the Achilles UVDB Verify B2 scheme.

We are committed to providing high quality products and where appropriate, many of our parts that are in contact with drinking water have WRAS or BS 6920 approval. Many of our products hold WRAS or similar approvals to demonstrate compliance with regulation 4 of the UK Water Regulations.

A COMPREHENSIVE RANGE

The Atplas product range covers the full suite of house connection solutions—everything needed between the water supply mains and the property. This includes tapping systems, boundary boxes for water meters, internal metering solutions, surface boxes, and an extensive selection of service fittings and valves. Our products are designed to suit virtually all installation environments and connect seamlessly to a wide range of pipe types.

Every component in the range meets the highest drinking water standards and fully complies with all internationally recognised approvals and testing requirements.

STANDARDS

Products meet all applicable local standards and have all necessary certifications.

PROVEN RECORD

Atplas house connection products have been sold in the marketplace for many years, giving peace of mind and the assurance that they are fit for purpose and long lasting.

CORROSION RESISTANCE

With products made mainly from either gunmetal or robust plastics, Atplas house connection products are corrosion resistant to ground conditions.

EASY TO FIT

Products are easy to fit, even when working in trench conditions.

METER BOX SURFACE BOXES

The Atlas range of Water Meter Boundary Boxes is available with both Grade B and Grade C surface box options. Each unit features a durable glass filled plastic or cast iron lid, which can accommodate SMART meters where required.

The range also includes boundary boxes specifically designed for installation in contaminated ground, ensuring reliable performance across all site conditions.

- BS 5834 Certified – Fully compliant with UK standards for safety, durability, and reliability.
- Durable & Load-Ready – Engineered to withstand heavy loads and harsh environmental conditions.
- Easy Top-Loading Access – Simplifies maintenance and installation, saving time on site.
- Trusted by Utilities & Contractors – Recognised across the UK construction and utilities sectors.
- Modern Standard, Replacing WIS 4-37-01 – Built to current specifications for consistent performance.

GRADE B & C LIDS

Grade B and Grade C Surface Box Lids

Atlas surface box lids are rigorously tested in accordance with BS 5834 Part 2, the British Standard that specifically assesses the performance and load-bearing capability of the surface box and lid, rather than the complete assembly. This approach ensures testing accurately reflects real-world conditions, where loads are applied directly to the lid.

By testing the surface box independently, load is applied solely to the lid and frame, eliminating any potential load transference to the pipe connection below. This is a critical consideration in underground infrastructure, as it helps protect pipework, joints, and fittings from excessive stress, reducing the risk of long-term damage or failure.

Grade C surface box lids are tested to a load of 0.5 tonnes, making them suitable for footpaths, verges, and other light-duty areas. Atlas Grade C lids exceed the minimum load requirement for Grade C,

providing additional confidence in strength, durability, and long-term performance, which makes them suitable for use in driveways and crossovers.

Grade B surface box lids are tested to a load of 8 tonnes, making them suitable for driveways, light vehicular access, and service areas, fully complying with the requirements of BS 5834 Part 2.

The result is a robust and reliable surface box solution that meets British Standards, with additional safety margin where applicable, helping specifiers, contractors, and utilities trust Atlas products in critical water and utility applications.

BOUNDARY BOXES FOR CONTAMINATED GROUND

Designed to meet the latest standards, the Barrier Box meets all your requirements for contaminated ground. The latest in Atplas’s proven range of boundary boxes, the Barrier Box is approved for contaminated ground to BS 5834-1:2017 and tested and certified to BS8588:2017, giving you a safe continued supply of potable water.

Ensure that you are compliant with the latest standards by using a contaminated ground boundary box tested and approved to the latest boundary box standard BS 5834-1:2017, and WRAS approved.

A telescopic boundary box which is used to provide a safe and clean underground environment for concentric water meters, featuring a manifold which is further protected against the ingress of ground water by the use of fluoroelastomer seals. Manifold provided with ¾" female connectors to allow safe connection to all the leading barrier pipe systems on the market using suitable male adaptors from the pipe systems. The Barrier Box can be identified by the green top on the isolation valve.

MEETS LATEST STANDARDS

- Approved for contaminated ground to BS 5834-1:2017
- Tested and certified to BS 5834-1:2017
- WRAS approval

TELESCOPIC BOX

- Height adjustable

MANIFOLD SEALED AGAINST CONTAMINATION

- Fluoroelastomer seals
- ¾" female connectors for fitting barrier pipe adaptors

SURFACE BOX OPTIONS

- Standard Grade C
- Polymer Grade B
- Ductile Iron Grade B

MANIFOLD OPTIONS

- Gunmetal, plastic or gunmetal elbows

Top loading for boundary boxes in the UK is covered by the standards: BS 5834-1:2017 and BS 5834-2:2011. European standard EN 124:2015 can also be applied.

According to BS 5834-1, boxes are defined as:

- Supplied without surface boxes: Grade A, B, C or non-load bearing N
- Boxes supplied with integrated surface boxes: Load bearing, SB: Grade A, B or C in accordance with BS 5834-2

Boxes supplied without surface boxes are classified according to a compression test of the box, whereas boxes supplied with surface boxes are be classified according to the load-bearing of the surface box to BS 5834-2.

The loading grade in accordance with BS 5834-2 is calculated based on the clear opening of the frame and surface area of the lid, and relates to the type of installation. Grade C is for “situations not intended for use by vehicles” and Grade B is for “areas to which vehicles would have only occasional access”.

Atlas has carried out testing of its surface boxes to relevant aspects BS 5834-2, and results can be supplied as required for the following types:

SINGLE METERBOXES

FLAT BOSS SADDLES FOR METRIC AND IMPERIAL PE/PVC PIPE

Specification

Flat Boss Saddle for PE/PVC Pipe.
Gunmetal CC491K to BS EN 1982:2008.
PN16, temperature up to 23°C. Seal to BS
EN 681-1. Made from WRAS approved
materials.

Suitable for the following
pipe materials

PVC

Poly Vinyl
Chloride

PE

Polyethylene

FLAT BOSS SADDLES FOR GRE PIPE

Specification

Flat Boss Saddle for GRE Pipe. Gunmetal CC491K to BS EN 1982:2008. PN16, temperature up to 23°C. Seal to BS EN 681-1. Made from WRAS approved materials.

Suitable for the following pipe materials

FOR GRE PIPES

Product Code	Pipe	Nom Size	Strap Size	Drilling	Gross Price	Service Level
1922-107-000-10	GRE	DN100	107-115mm	Undrilled	£72.10	C

TAPPING SYSTEMS

SELF TAPPING FERRULE STRAPS FOR PVC/PE PIPE - GUNMETAL TALBOT PUSHFIT

Specification

Self-tapping Ferrule Straps, Gunmetal
CC491K straps, Gunmetal Banjo, EPDM
Seals, PN16 Banjo, EPDM Seals, PN16

Suitable for the following
pipe materials

PVC

Poly Vinyl
Chloride

PE

Polyethylene

TAPPING SYSTEMS

SELF TAPPING FERRULE STRAPS FOR PVC/PE PIPE - BSP FEMALE

Specification

Self-tapping Ferrule Straps,
Gunmetal CC491K straps,
Gunmetal banjo, EPDM Seals,
PN16

Suitable for the following
pipe materials

PVC

Poly Vinyl
Chloride

PE

Polyethylene

Product Code	Pipe	Nom Size	Strap Size (mm)	Outlet Size	Outlet Type	Banjo	Gross Price	Service Level

TAPPING SYSTEMS

SELF TAPPING FERRULE STRAPS FOR AC PIPE - GUNMETAL TALBOT PUSHFIT

Specification

Self-tapping Ferrule Straps,
Gunmetal CC491K straps, Gunmetal
banjo, EPDM Seals, PN16

Suitable for the following
pipe materials

AC

Fibre
Cement

Product Code	Pipe	Nom Size	Strap Size (MM)	Outlet Size	Outlet Type	Banjo	Gross Price	Service Level
1921-074-20-20-02501	AC	2" (DN50)	74-78	25mm	Talbot Pushfit	Gunmetal	£84.51	C
1921-096-20-20-02501	AC	3" (DN80)	96-101	25mm	Talbot Pushfit	Gunmetal	£94.60	C

TAPPING SYSTEMS

COMBINED SADDLE FERRULES FOR PE/PVC PIPE - SCREWDOWN GUNMETAL TALBOT PUSHFIT

Specification

Combined Saddle Ferrule, Gunmetal straps, Gunmetal Banjo, EPDM Seals, PN16

Suitable for the following pipe materials

PVC

PE

Poly Vinyl Chloride

Polyethylene

Product Code	Pipe	Nom Size	Strap Size (mm)	Outlet Size	Outlet Type	Banjo	Gross Price	Service Level

TERMS & CONDITIONS OF SALE

CONDITIONS OF SALE

All products furnished by Atlantic Plastics Ltd (hereinafter "Seller") to the entity stated on the face of the order (hereinafter "Buyer") shall be in accordance with the following terms and conditions unless otherwise stated in writing:

ACCEPTANCE AND COMPLETE AGREEMENT

Buyer's order is binding only when accepted in writing at the principal office of Seller. The terms and conditions of sale are only those stated herein, which with the information contained overleaf shall constitute the complete agreement between the parties and may not be altered or modified except in writing duly executed by each party. The parties agree there are no agreements, representations or warranties between the parties, oral or written, with respect to the products sold hereunder (including any made or implied from past dealings) except as expressed herein. No terms and conditions stated in or attached to Buyer's communications to Seller, including but not limited to Buyer's purchase orders the terms of which are hereby rejected, are applicable to these terms and conditions in any way and in no event shall such Buyer's or any other terms and conditions be considered valid exceptions to the provisions of these terms and conditions. Trade custom, trade usage and past performance are superseded by these terms and conditions and shall not be used to interpret these terms and conditions.

SHIPPING

Shipping dates are estimates only and are not guaranteed. Seller will use every effort to make shipments as scheduled and may make partial shipments. Seller shall not be liable for any loss or damage ensuing from late delivery.

EXPORTATION

If the products ordered are to be exported from the country of Seller, the quoted shipping dates are subject to receipt of all export documents and authorizations. Regardless of ultimate destination, the prices quoted are based on packing for domestic shipment unless otherwise stated in writing. Buyer agrees to provide Seller in writing with the ultimate destination and identity of the end-user prior to shipment if the products are to be exported. In the event that the shipment of the products would violate US export control laws or if the Buyer fails to provide destination and end-user information within seven (7) days of a request from Seller, Seller shall be entitled to immediately terminate the contract without any compensation due to Buyer as a result of such termination.

PRICES

Unless otherwise specified and subject to

conditions below the price quoted is nett and for orders with a minimum nett value of £2,000 includes packing and delivery within the United Kingdom. For orders under £500 the Seller may apply an optional surcharge. Any quotation is given on the basis that no Contract will come into existence until the Seller dispatches an acknowledgement of order to you. Any quotation is valid for the period stated therein provided it has not been previously withdrawn by the Seller. In case of destinations outside the UK, prices and deliveries are subject to individual quote. Carriage, freight and insurance arranged to the Buyer's requirements will be included in our quotation. Prices quoted, unless otherwise stated in writing, do not include sales, use, excise, value added or similar taxes or duties. Buyer shall pay these taxes directly if the law permits or will reimburse Seller if it is required to pay them. Buyer will provide tax exemption certificates or evidence of tax payment on request. The price quoted is based on the cost of raw materials, wage rates, shipping charges, freight, insurance premiums, landing charges and duties, railage and cartage applicable on the date on which a contract, acceptance, confirmation, tender or quotation is issued. Seller is entitled to alter or withdraw prices shown on our quotations or acknowledgments of orders without notice and without liability. Accordingly, any increase in such costs after such date and prior to the fulfilment of the contract shall be for the account of Buyer. The Seller reserves the right to cancel or withdraw a quotation without notice at any time before acceptance. Quotations not accepted within thirty days shall be deemed to be withdrawn unless confirmed by the Seller in writing. If any law, order, regulation, duty or tax, etc. is made or changed after the date of the Seller's quotation which affects the cost to the Seller of its performance of the Contract, the price shall be varied accordingly.

PAYMENT

Standard payment terms are net thirty (30) days from date of invoice. Acceptance of orders received will not proceed until the Buyer's satisfactory financial status has been established. In the event credit has not been established, Seller reserves the right to require payment, or the issuance of an irrevocable letter of credit satisfactory to Seller and at Buyer's cost, in advance of shipment. Time for payment shall be of the essence of this Contract. Any amounts not paid when due shall bear interest on a daily basis at the rate of 12% per annum or at the highest rate permitted by law (whichever is less), from the date of shipment until paid. A £50 minimum nett invoice charge will apply to any order valued less than £50 unless otherwise agreed in writing. Should there be any dispute as to whether the

products conform to contract or whether any obligation has been properly performed by Seller, Buyer undertakes that, notwithstanding such dispute, it shall not withhold any payment due, whether by way of setoff, counterclaim, discount, abatement or otherwise but shall pay any such amount to Seller on the due date therefor unless the Buyer has a valid court order requiring an amount equal to such deduction to be paid by the Seller to the Buyer and the Buyer gives the Seller sight of such order. The remedy of Buyer in such circumstances shall be limited to an action against Seller for the repayment of all or any relevant portion of any payment effected by Buyer. All payments payable to the Seller under this Contract shall become due immediately upon termination of this Contract notwithstanding any other provision set out in these Conditions of Sale.

SOLVENCY

Buyer's order will be deemed a representation that Buyer is solvent and able to pay for the products ordered. If Buyer fails to make payments when due or if bankruptcy or insolvency proceedings (including judicial composition proceedings) are instituted by or against Buyer, or if Buyer makes an assignment for the benefit of creditors, Buyer will be deemed to be in default and Seller will have the right to terminate forthwith its obligations by written notice to Buyer, in which case the termination provisions set out below shall apply.

CANCELLATION

No products may be returned without prior written approval of Seller. Orders placed with and accepted by Seller may not be cancelled except upon Seller's written consent prior to shipment and Buyer's acceptance of Seller's cancellation charges which shall protect Seller against all costs and losses. Seller reserves the right to cancel any sale hereunder without liability to Buyer (except for refund of monies already paid) if the manufacture or sale of the products is or becomes technically or economically impractical.

MANUFACTURE

Seller reserves the right to discontinue the manufacture of, or change or modify the design and/or construction of the products sold pursuant to these terms and conditions, without incurring any obligation to Buyer.

JURISDICTION AND DISPUTES

These terms and conditions shall be governed in accordance with the law of the domicile of Seller. All disputes under these terms and conditions shall be resolved as follows:

- for contracts with Buyers in the domicile of Seller such question, dispute or difference shall be submitted to the exclusive jurisdiction of the courts of the domicile of Seller; and
- for contracts with all other Buyers such question, dispute or difference shall be finally settled by one or more arbitrators under the Rules of Conciliation and Arbitration of the International Chamber of Commerce.

The place of arbitration shall be in London, England and the language of the arbitration proceedings shall be English and the arbitration award shall be final and binding on the parties.

INSPECTION

Where we arrange delivery, we will repair or replace Goods damaged or lost in transit to the place of delivery provided always that you shall advise us within ten days of such damage or loss. Claims for partial loss or damage in transit must be reported to the carriers and us in writing within three days of receipt of Goods. If delivery is not affected within ten days from date of the invoice we must be immediately advised, as otherwise no claim for the Goods can be entertained. This condition shall not apply where Goods are sold for export, when our responsibility shall cease when the Goods are placed on board ship and we are under no obligation to give you the notice specified in section 32(3) of the Sales of Goods Act 1979.

TITLE AND RISK

The risk in the products shall pass to the Buyer on completion of delivery. Title to the products shall not pass to the Buyer until the Seller has received payment in full (in cash or in cleared funds) for the products and for any other products that the Seller has supplied to the Buyer and for which payment has become due. Until title in the products passes to the Buyer under this clause the Buyer shall:

- (A) Hold the products on a fiduciary basis as the Seller's bailee;
- (B) Store the products separately from all other goods held by the buyer so that they remain readily identifiable as the Seller's property;
- (C) Not remove, deface or obscure any identifying mark or packaging on or relating to the product;
- (D) Maintain the products in satisfactory condition and keep them insured against all risks for their

full price from the date of delivery;
(E) Notify the Seller immediately if it becomes subject to any bankruptcy or insolvency proceedings;
(F) Give the Seller such information relating to the products as the Seller may require from time to time but the Buyer may resell or use the products in the ordinary course of its business.

If before title to the products passes to the Buyer the Buyer becomes subject to bankruptcy or insolvency proceedings, or the Seller reasonably believes that any such event is about to happen or reasonably believes that it will not be paid for the products and notifies the Buyer accordingly, then, provided that the products have not been resold, or irrevocably incorporated into another product, and without limiting any other right or remedy the Seller may have, the Seller may at any time require the Buyer to deliver up the products and, if the Buyer fails to do so promptly, enter any premises of the Buyer or of any third party where the products are stored in order to recover them.

WARRANTY

All products that Seller manufactures are warranted, when paid for and properly installed, operated and maintained, to be free from defects in material and workmanship and to conform to the specifications, if any, listed on the other side of this form. If no specifications are listed, the products are warranted to conform to Seller's currently published specifications. The warranty period is twelve months from delivery to the Buyer. No warranty is given for products or components manufactured by companies not affiliated by ownership with Seller, or for products which have been subject to misuse, improper installation, corrosion, or which have been disassembled, modified or repaired by unauthorized persons. Seller must receive written notice of the defect from Buyer within the warranty period. Seller's liability is limited solely to servicing or adjusting any product returned to Seller's factory for that purpose, including replacing any defective parts therein or, at Seller's option, refunding to Buyer the purchase price allocable to the nonconforming product. Buyer must pay packing, crating and transportation costs to and from Seller's factory. At Buyer's request, Seller will make reasonable efforts to provide warranty service at the Buyer's premises, provided the Buyer pays Seller's then current rates for field service and the associated travel and living expenses. If a fault has been caused by improper installation, maintenance or use, or by abnormal conditions of operation, repairs will be billed at normal rates. If any fault arises, the following steps must be taken:

A. Notify Seller of the product model number, serial number and details of the difficulty. On receipt of this information, Buyer will be given service data or shipping instructions.

B. On receipt of Seller's shipping instructions, forward the product prepaid. If the product or the fault is not covered by warranty, an estimate of charges will be furnished before work begins.

SELLER DISCLAIMS ALL OTHER WARRANTIES, WHETHER EXPRESS, IMPLIED OR STATUTORY, SUCH AS WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PURPOSE. SELLER ALSO DISCLAIMS ALL WARRANTIES REGARDING ANY ANCILLARY SERVICES RENDERED.

FOREIGN CORRUPT PRACTISES ACT

(A) The BUYER hereby warrants and represents that in performing this Agreement, the BUYER shall comply and cause its employees and BUYER to comply with all applicable laws, rules, regulations and policies, and shall save the SELLER harmless against any legal claims resulting from the BUYER's failure to do so.
(B) The BUYER acknowledges that the SELLER has entered into this Agreement with the BUYER in material reliance on the following representations and warranties made by the BUYER: (i) neither receipt of any amount due and payable under this Agreement, performance of the services for which the said amounts are payable, nor the relationships created hereby or pursuant hereto, are in any respect in violation of the laws, rules, orders, policies or regulations of any country, and (ii) in connection with the performance of such services, the BUYER will not use any form of trade or communication or pay, either directly or indirectly, or offer to pay, promise to pay or authorise the payment of any money, gift, or other thing of value to any person who is an official, agent, employee or representative of any government or instrument thereof, to any political party or official thereof or to any candidate for political or political party office, or to any other person while knowing or having reason to believe that all or any portion of such money, gift or thing if value will be offered, given, or promised, directly or indirectly, to any such official, agent, employee or representative, political party, political party official, or candidate for the purpose of influencing any act or decision of any such official to obtain or retain business, or direct business to any person or entity, or for any other improper advantage or purpose.

POLLUTION

Buyer agrees to indemnify, defend and hold Seller harmless against any loss, damage, expense, claim and any other cost or liability (including, but not limited to, fines and penalties to the extent permitted by law, clean-up or other remedial or containment costs, or legal, technical or other professional fees) arising as a result of any pollution, contamination, or other loss or damage to the environment or natural resources which arise in connection with any goods or services provided by Seller under the contract, regardless of cause, including without limitation Seller's negligence, strict liability, or other act or omission.

DRAWINGS

Any drawings submitted herewith are only to show the general style, arrangement, and approximate dimensions of the products offered. No work is to be based on drawings unless the drawings are certified. In no event will manufacturing or proprietary drawings be supplied. All offers will be made at no obligation, unless explicitly stated otherwise and are based on the data, specifications etc. which have been provided. Unless otherwise agreed in writing, all samples and all dimensions, weights, formulae and other particulars and information contained in engineering designs, quotations, tenders, specifications, prospectuses, advertisements and other documents supplied by Seller, are supplied or communicated for information only and do not form part of the contract.

CONFIDENTIALITY

Buyer agrees that all drawings, prints and other technical material which Seller provides to Buyer, whether prepared by Seller or by third parties under contract to Seller, contain data which may embody trade secrets and confidential know-how commercial value to Seller or third parties under contract to Seller. Buyer agrees (a) to keep such information confidential; (b) that it will not disclose such information to any other person, corporate division or entity except where disclosure is required by Court order or otherwise by law in which event Buyer shall notify Seller in advance in writing of the requested disclosure; (c) will not use such information except in connection with the products supplied hereunder; and (d) will not sell, lease, loan or permit any other person, corporate division or entity to use such information for any purpose, without Seller's express prior written consent. Nothing herein shall restrict the use of information available to the general public or from disclosure by Buyer pursuant to any order of the court. Buyer agrees to reimburse Seller for any damages resulting from Buyer's breach of this confidentiality provision.

INTELLECTUAL PROPERTY RIGHTS

All patents, copyrights, designs, drawings and other technical or commercial information relating to the products, including any software provided by Seller pursuant to any proposal, tender or the contract, and the intellectual property rights therein made or acquired by Seller prior to or during the preparation of the proposal or tender or in the course of work on the contract shall be and remain the exclusive property of Seller.

If a product furnished to Buyer becomes or, in Seller's opinion, may become the subject of any claim, suit or proceeding for infringement of any intellectual property rights, Seller may at its option and expense (i) obtain for Buyer the right to use, lease or sell the product, (ii) replace the product, (iii) modify the product, or (iv) remove the product and refund the purchase price paid by Buyer less a reasonable amount for use, damage or obsolescence. Seller will not be liable for any infringement arising from the combination of products or from the use of a product in practicing a process. Seller's total liability to Buyer will not, under any circumstances exceed the purchase price paid for the allegedly infringing product. Buyer agrees, at its expense, to protect and defend Seller against any claim of intellectual property right infringement arising from compliance with Buyer's designs, specifications or instructions and to hold Seller harmless from damages, costs and expenses attributable to any such claim.

INDEMNITY & INSURANCE

Buyer agrees to defend, indemnify and hold the Seller (and its agents, representatives, employees, officers, related companies, successors and assigns, and customers) harmless from all claims, demands, actions, damages and liabilities (including legal fees and consequential and incidental damages) arising out of any injury (including death) to any person or damage to any property in any way connected with any act or omission of Buyer, its agents, employees, or subcontractors.

LIMITATION OF DAMAGES

IN NO EVENT SHALL SELLER BE LIABLE, IN CONTRACT, TORT, STRICT LIABILITY, LAWS RELATING TO THE PROTECTION OF THE ENVIRONMENT, OR UNDER ANY OTHER LEGAL THEORY, FOR INCIDENTAL, INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES, REGARDLESS OF WHETHER IT WAS INFORMED ABOUT THE POSSIBILITY OF SUCH DAMAGES, AND IN NO EVENT SHALL SELLER'S TOTAL AGGREGATE LIABILITY HEREUNDER EXCEED AN AMOUNT EQUAL TO THE CONTRACT PRICE.

WAIVER

No failure to exercise and no delay in exercising on the part of Seller any right, power or privilege hereunder will operate as a waiver thereof nor will any single or partial exercise of any right, power or privilege hereunder preclude further exercise of the same right, power or privilege.

VALIDITY OF PROVISIONS

In the event any provision or any part or portion of any provision of these Terms and Conditions shall be held to be invalid, void or otherwise unenforceable, such holding shall not affect the remaining part or portions of that provision, or any other provision hereof.

FORCE MAJEURE

If performance of any obligation under the contract (other than an obligation of Buyer to make payment) is prevented, restricted or delayed by any act of God, act or omission of government or regulatory body, war, hostilities, industrial dispute at either party's premises or elsewhere, failure or delay in source of supply of materials or equipment, fire, explosion, accident or breakdown of essential machinery or equipment or by any cause (whether similar or not to any of the above events) beyond the reasonable control of the party whose performance is affected which for the avoidance of doubt includes any sub-contractor or supplier of Seller, then that party shall be excused from and shall not be liable for failure in performance to the extent of that prevention, restriction or delay and the time for performance shall be extended accordingly. If performance is delayed for more than 120 days by any cause referred to above and the parties have not agreed upon a revised basis for continuing the contract at the end of the delay, then either party may after that period and while the cause of the non-performance still exists terminate the contract by giving not less than 30 days' notice in writing to the other party, in which event the termination provisions set out below shall apply.

SUSPENSION

If Buyer fails to make any payment when due or to perform on time any of its other obligations under this contract Seller shall be entitled to suspend performance of the contract until the failure is remedied.

TERMINATION

Seller shall be entitled to terminate the contract in the event Buyer is in breach of any of its obligations hereunder and fails to remedy the breach within twenty eight (28) calendar days after receiving written notification thereof from Seller or if Buyer goes into liquidation, receivership, administration or makes any voluntary arrangement with any of its creditors. Any termination of the contract in accordance with the terms hereof shall become effective upon service of a written notice of termination on the other party. Upon termination, howsoever arising, Seller shall be entitled forthwith to suspend any further deliveries under the contract without any liability to Buyer. Within 14 days of such a notice of termination, howsoever arising, Buyer shall pay to Seller.

- the outstanding balance of the contract price for products which have been delivered and for those products which are then capable of being delivered, and
- the costs incurred or committed by Seller up to the date of notice of termination in performing work on products which are not then in a deliverable state plus a reasonable margin to be agreed between the parties which shall not be less than 15%, and
- the costs reasonably incurred by Seller as a result of the termination. This obligation shall not, however, apply in respect of deficient or delayed products and in respect of which Buyer has terminated the contract by reason of the Seller's continual failure to remedy the deficiency or delay.

STORAGE

If Buyer does not take delivery of products within 7 days of notification that they are ready for delivery Seller shall be entitled on behalf of Buyer to put the products into storage at Buyer's expense. Seller shall be deemed to have delivered such products to Buyer on storage and shall be entitled to payment on presentation of the warehouse receipt in place of any bill of lading or similar document otherwise required under the contract. Risk shall pass to the Buyer on storage, but title shall only pass in accordance with the title provision set out above.

VARIATIONS

Unless otherwise provided in the contract, no variation to the contract may be made unless jointly agreed in writing by Seller and Buyer. If any variation increases or reduces the cost or time to Seller of performing the contract then the contract price and/or programme shall be adjusted accordingly. Seller shall not be obliged to accept any variation if the net effect, including any variations already made, is to increase or reduce the contract price by more than 15%. Variations shall, if not the subject of a quotation from Seller which has been accepted by Buyer prior to the variation being ordered, be priced by reference to the contract price or, where this is not relevant, by cost plus 25%. The time for performance of the contract shall automatically be adjusted in accordance with any variation.

GENERAL

Any notice required or permitted to be given by either party to the other hereunder shall be in writing addressed to the other party at its registered office or principal place of business or such other address as may at the relevant time have been notified pursuant to this provision to the party giving the notice. Notices may be sent by registered mail, facsimile transmission or electronic mail and shall be deemed delivered when received by the other party.

The headings herein have been used for ease of reference only and shall not affect the meaning or interpretation of this contract in any manner whatever. Buyer shall not be entitled to cede, transfer and/or assign any of its rights or delegate any of its obligations under this contract, without the prior written consent of Seller.
