

**MATRIX TRAFFICABLE SURFACE BOX**

Grade B

**Matrix Grade B Surface Box**

## MATRIX TRAFFICABLE SURFACE BOX

Grade B

A Grade B surface box which fits Matrix Plus and EBCO single water meter boundary boxes.

It is made from high grade engineering polymer to ensure that it is tough and robust enough for a long life expectancy in trafficable areas. At the same time it is lightweight, and due to its surface pattern provides excellent grip.

### Options

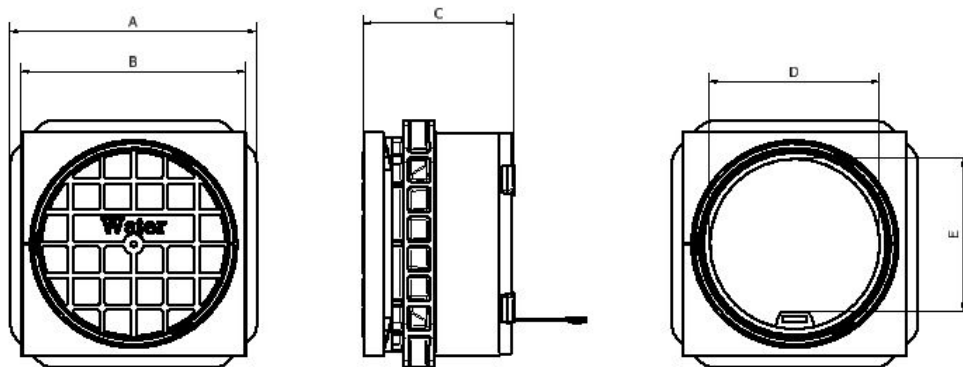

- » Keyway
- » Galvanised steel detector plate
- » Adapted for Smart Metering
- » Customer branding on lid

### Benefits

- » Robust and tough - for use in areas subject to occasional vehicle access
- » Lightweight for easier installation and manual handling
- » Fits directly to Matrix Plus and EBCO single meter boxes
- » Grade B: compliant with relevant aspects of BS 5834
- » 8° Frame Tilt in order to fit pavement camber when used with Matrix Plus and EBCO single meterboxes.
- » Fully sealed lid provides safe and clean environment for the meter
- » Provides excellent retention following reinstatement due to its shape
- » Anti slip lid design to BS 7976 Part 2

Feature	Specification
Frame and Cover	8° tilt when used with Matrix Plus or EBCO single meterbox. Sealed, Pluck Lid. Grade B lid is compliant with relevant aspects of BS 5834. Coefficient measurement of dynamic measurement is carried out in accordance with BS 7976 and the UKSRG Guidelines 2005.
Material	High grade engineering polymer
Height Adjust (apr)	70mm when used with Matrix Plus or EBCO single meterbox
Lid seal	Dust protection and Watertight
Product Weight (apr)	2 kg

The technical data and performance may be modified without prior notice depending on the technical advances.
